RETAIL MERCHANDISING

Retail stores were at first unsuccessful in Heber City because of the lack of money in the valley, the limited stocks and the great distances involved in bringing in merchandise.

J. Ross offered goods for sale in a cabin on Jessie Bond's lot in Heber, and was followed by Snyder and Company from Wanship who used William Davidson's cabin. William Jennings took over the trade when Snyder and Co. withdrew and John Witt began a merchandising venture. All these attempts were made within a three-year period and failed.

In December of 1867 Abram Hatch, a successful merchant from Lehi, came to the valley as the first bishop of the new Heber Ward. He brought with him his inventory from Lehi and set up a store in his home, located on Main Street and First North. Mrs. Hatch and a son, Joseph, operated the store until 1882 when a new building was erected at Main and Center Streets and the store was organized as A. Hatch and Company. Joseph Hatch became manager and served for many years.

This new business venture benefited from the flow of money into the valley through John Witt's oat contract with the stagecoach line, and proved to be the first permanent successful business firm in the valley.

The chief competitor to A. Hatch and Company came into being as a result of railroad activity in Utah in 1868-69. Mark Jeffs, a convert to the Church from England, worked on the railroad crews that built the lines in Utah and successfully saved \$70.

He invested this money in merchandise in Salt Lake and came to Heber where he opened a store in a log cabin on Main Street. He measured calico on a bed and wrapped it on a chair. Scales were kept on a window ledge. Through sound business judgment, Mr. Jeffs was able to expand his business into a building one block west of Main Street

will plan on having a general Hospital Medical Staff meeting just prior to the USMA meetings. Would you please indicate on the enclosed card if your medical staff is interested in having an active interested staff member represent your hospital in the USMA Hospital Medical Staff Section? We will contact you with further information relative to organizational meetings and provide you with additional information as per your interest. I cannot emphasize enough the importance of physician dialogue concerning today's vital issues and the necessity of having a forum among ourselves so that medical staff views can be presented, not only to other physicians but to the public legislative bodies and hospitals.

If I can be of further assistance or if you would like someone to visit your staff and discuss in greater detail the Hospital Medical Staff Section, I would be happy to arrange this, if not on a hospital basis, at least on a county medical society basis. We would appreciate hearing from you within a month.
